

MATRIX ULTRA

A new generation of
secured key control systems

CONTROL YOUR KEYS

PROTECT YOUR ASSETS!

MATRIX ULTRA

MATRIX ULTRA is the world largest capacity key control system which allows you to secure and control up to 1,782 keys in a single unit instead of chained units that takes valuable floor space

Unlike other systems where anyone who opens the front door can tamper or steal any key in the cabinet, MATRIX protects each key in a separate locked compartment with no ability to access without manager permissions

In addition, every operation made is video recorded for future monitoring

MATRIX software contains many advanced and unique features allowing you to stay in full control over keys usage in your organization

The system arrives with a large 17" touch monitor and voice guidance as standard making the operation extremely easy
