

415G

High Security Multipoint
Lock for Steel Doors

Larger. Stronger. Smarter.

415G. A powerful lock for strong doors.

Add extra High Security to your steel doors, with 415G, Mul-T-Lock's robust new multipoint lock. It is bigger and better in every way:

Larger with no less than 14 geometrical locking points for enhanced attack resistance, the 415G also features an impressive bolt throw of 42 mm!

Stronger the 415G's unique heavy-duty structure, hardened cylinder protector and geometric locking feature are empowering assets to any tough, well-built steel door.

Smarter Mul-T-Lock's 415G has a cogwheel mechanism that is compatible with cam cylinders and enables the impressive 42 mm bolt throw with only two full key turns (720°).

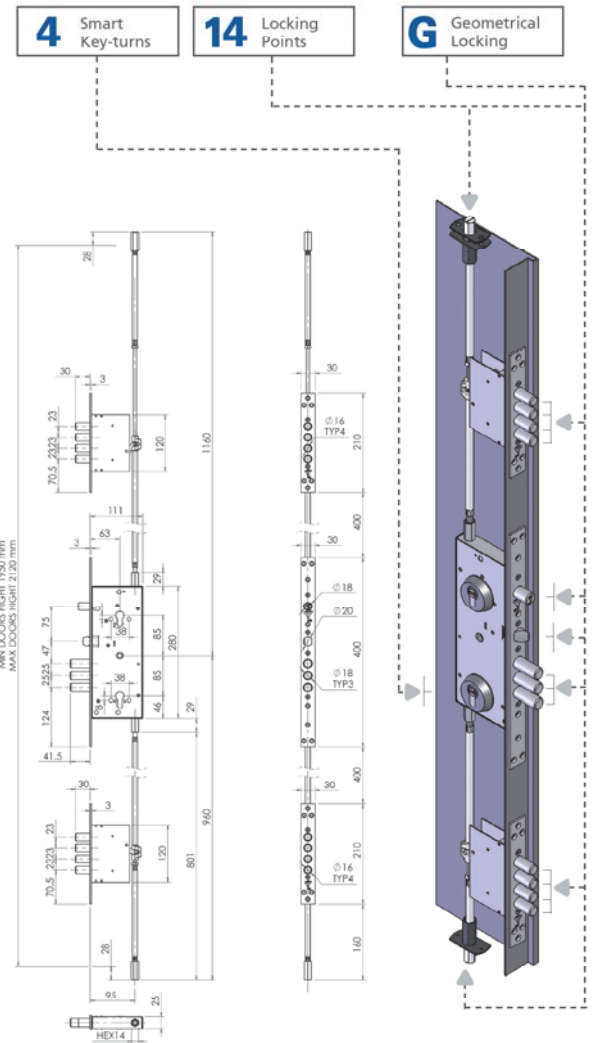

In addition, this special multipoint lock accommodates two cylinders for extra protection and advanced lockout capabilities.

And even **More Convenient...**

For door manufacturers' convenience, the 415G is supplied with a complete installation kit that contains:

- Central lock
- Side mechanisms
- Rods
- Required hardware and security escutcheons

The 415G meets the EN 12209 Security Grade 4 standard.
